**DETAILED ACTION**

1. Claims 1-6 and 9-18 are pending in this office action; claims 7 and 8 are canceled.

***Continued Examination Under 37 CFR 1.114***

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 24, 2008, has been entered.
3. Applicant's arguments, filed March 24, 2008, have been considered and are persuasive.

***Claim Rejections - 35 USC § 101***

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 1-6, 9-15, 17, and 18 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 1 and 9 are system claims that do not cite any tangible elements, i.e., a processor. Claims 2-6 and 10-15 depend from claims 1 and 9, respectively, and therefore inherit their deficiencies.

Claim 17 claims a computer readable medium, which can contain tangible embodiments (hard disks, flash, ROMS) as well as non-tangible embodiments (carrier waves, wireless signals). As such, the claim is not limited to tangible embodiments, as is therefore non-statutory.

Claim 18 claims a structure comprising means for performing. The limitations merely cite an arrangement of data, or a data structure. Considering a data structure to be "a physical or logical relationship among data elements, designed to support specific data manipulation functions" (IEEE Standard Dictionary of Electrical and Electronic Terms 308, 5<sup>th</sup> edition, 1993), this is considered non-functional descriptive material that does not constitute a statutory process, machine, manufacture, or composition of matter.

***Allowable Subject Matter***

6. Claim 16 is allowed.
